Forensic Science International, 36 (1988) 295–297
Elsevier Scientific Publishers Ireland Ltd.

SUBJECT INDEX
Volume 36 (1988)

Abatement, air pollution, noise, odours, citizens, law enforcement agencies, 219
Absorption-elution test, stains, species identification, absorption inhibition test, Gm and Km typing, 183
Absorption inhibition test, stains, species identification, absorption-elution test, Gm and Km typing, 183
Acid gastroesophageal reflux, sudden infant death syndrome, pH metry, near misses, subsequent siblings, 255
Acute poisoning, Sri Lanka, 101
Adulterant, opium, heroin, arsenic, strychnine, high performance liquid chromatography, 193
Agrochemical poisoning, Sri Lanka, 81
Air pollution, noise, odours, abatement, citizens, law enforcement agencies, 219
Alcoholism, course study, typology, 121
Arms and ammunition, drugs, heroin, terrorism, trafficking, couriers and peddlars, 283
Arsenic, adulterant, opium, heroin, strychnine, high performance liquid chromatography, 193
Autopsy, certification of death, post-mortem examination, legislation, 139

Blood group P_1, immune antisera, hydatid cyst fluid, pigeon blood, 179
Body temperature, time of death, 47

Causes, child murder, controls, 267
Certification of death, post-mortem examination, autopsy, legislation, 139
Child murder, causes, controls, 267
Chronic alcoholic, sudden death, fatty liver, 105
Citizens, air pollution, noise, odours, abatement, law enforcement agencies, 219
Clinical forensic medicine, police surgeons, police medical officers, 15
Community medicine, technical installations, prevention, 69
Comparison, handwriting, observation, method, graphic characteristics, suicide, 169
Computer-linked, tachograph, microscopic analysis, 211
Concerned forensic scientists, torture, doctors at risk, 147
Confidentiality, privacy, law, 143
Controlled study, torture, sequelae, 153
Controls, child murder, causes, 267
Cotton, fibres analysis, polyester (terene), near-infrared photoacoustic spectroscopy, 31
Couriers and peddlars, drugs, heroin, terrorism, trafficking, arms and ammunition, 283
Course study, alcoholism, typology, 121
Criminal investigation, human rights, law enforcement, 289

Dental computer programme, dental mass disasters, forensic dental training, 279
Dental mass disasters, forensic dental training, dental computer programme, 279
Doctor, rights, duties, witness, expert, 11
Doctors at risk, torture, concerned forensic scientists, 147
Documentation for repatriation, victim recovery, evidence, victim identification, property, 223
Drugs, heroin, terrorism, trafficking, couriers and peddlars, arms and ammunition, 283
Duties, doctor, rights, witness, expert, 11

Elution temperature, human hair flat-cracking, red blood cell indicator, test effect, 173
Expert, doctor, rights, duties, witness, 11
Evidence, victim recovery, victim identification, documentation for repatriation, property, 223

Fatalities, road accidents, 91
Fatty liver, chronic alcoholic, sudden death, 105
Fibres analysis, polyester (terene), cotton, near-infrared photoacoustic spectroscopy, 31

Forensic, terrorism, postmortem examination, 57
Forensic dental training, dental mass disasters, dental computer programme, 279
Forensic examinations, toolmarks, scanning electron microscopy, 21
Forensic institutes, history, under-graduate curriculum, post-graduate education, 3
Forensic medicine, human problems, forensic science, law, 161
—, post-graduate education, police surgeon, social health, 261
Forensic science, human problems, forensic medicine, law, 161
Full time, police surgeons, part time, 117

Graphic characteristics, handwriting, observation, comparison, method, suicide, 169
Gm and Km typing, stains, species identification, absorption inhibition test, absorption-elution test, 183

Handwriting, observation, comparison, method, graphic characteristics, suicide, 169
Heroin, adulterant, opium, arsenic, strychnine, high performance liquid chromatography, 193
—, drugs, terrorism, trafficking, couriers and peddlars, arms and ammunition, 283
High performance liquid chromatography, adulterant, opium, heroin, arsenic, strychnine, 193
History, forensic institutes, under-graduate curriculum, post-graduate education, 3
Human hair flat-cracking, red blood cell indicator, elution temperature, test effect, 173
Human problems, forensic science, forensic medicine, law, 161
Human rights, law enforcement, criminal investigation, 289
Hydatid cyst fluid, blood group P_1, immune antisera, pigeon blood, 179

Identification, skeletal remains, 73
Immune antisera, blood group P_1, hydatid cyst fluid, pigeon blood, 179
Investigative technique, rape, victim sensitivity, 113

Law, confidentiality, privacy, 143
—, human problems, forensic science, forensic medicine, 161
Law enforcement, human rights, criminal investigation, 289
Law enforcement agencies, air pollution, noise, odours, abatement, citizens, 219
Legislation, certification of death, post-mortem examination, autopsy, 139
—, traffic control, traffic education, rural highways, 237

Medical negligence, medical personal injury litigation, 285
Medical personal injury litigation, medical negligence, 285
Method, handwriting, observation comparison, graphic characteristics, suicide, 169
Microscopic analysis, tachograph, computer-linked, 211
Mortuary technicians, training, Western Australia, 231

Near-infrared photoacoustic spectroscopy, fibres analysis, polyester (terene), cotton, 31
Near misses, sudden infant death syndrome, acid gastroesophageal reflux, pH metry, subsequent siblings, 255
Noise, air pollution, odours, abatement, citizens, law enforcement agencies, 219

Observation, handwriting, comparison, method, graphic characteristics, suicide, 169
Odours, air pollution, noise, abatement, citizens, law enforcement agencies, 219
Opium, adulterant, heroin, arsenic, strychnine, high performance liquid chromatography, 193
Organophosphate poisoning, skin absorption, respiratory failure, 251
Organophosphorus, poisoning, 97

Part time, police surgeons, full time, 117
Pearson's formula, stature, Sri Lankan population, 241
pH metry, sudden infant death syndrome, acid gastroesophageal reflux, near misses, subsequent siblings, 255
Pigeon blood, blood group P_1, immune antisera, hydatid cyst fluid, 179
Poisoning, organophosphorus, 97
—, yellow oleander, *Thevetia*, 247
Police medical officers, clinical forensic medicine, police surgeons, 15

Police surgeon, forensic medicine, post-graduate education, social health, 261
—, clinical forensic medicine, police medical officers, 15
—, full time, part time, 117
Polyester (terene), fibres analysis, cotton, near-infrared photoacoustic spectroscopy, 31
Post-graduate education, forensic medicine, police surgeon, social health, 261
—, history, forensic institutes, under-graduate curriculum, 3
Post-mortem examination, certification of death, autopsy, legislation, 139
—, terrorism, forensic, 57
Prevention, technical installations, community medicine, 69
Privacy, confidentiality, law, 143
Property, victim recovery, evidence, victim identification, documentation for repatriation, 223

Rape, investigative technique, victim sensitivity, 113
Red blood cell indicator, human hair flat-cracking, elution temperature, test effect, 173
Respiratory failure, organophosphate poisoning, skin absorption, 251
Rights, doctor, duties, witness, expert, 11
Road accidents, fatalities, 91
Rural highways, traffic control, legislation, traffic education, 237

Scanning electron microscopy, toolmarks, forensic examinations, 21
Sequelae, torture, controlled study, 153
Skeletal remains, identification, 73
Skin absorption, organophosphate poisoning, respiratory failure, 251
Social health, forensic medicine, post-graduate education, police surgeon, 261
Species identification, stains, absorption inhibition test, absorption-elution test, Gm and Km typing, 183
Sri Lanka, acute poisoning, 101
—, agrochemical poisoning, 81
Sri Lankan population, Pearson's formula, stature, 241
Stains, species identification, absorption inhibition test, absorption-elution test, Gm and Km typing, 183
Stature, Pearson's formula, Sri Lankan population, 241
Strychnine, adulterant, opium, heroin, arsenic, high performance liquid chromatography, 193
Subsequent siblings, sudden infant death syndrome, acid gastroesophageal reflux, pH metry, near misses, 255
Sudden death, chronic alcoholic, fatty liver, 105 sudden infant death syndrome, acid gastroesophageal reflux, pH metry, near misses, subsequent siblings, 255
Suicide, handwriting, observation, comparison, method, graphic characteristics, 169

Tachograph, microscopic analysis, computer-linked, 211
Technical installations, community medicine, prevention, 69
Terrorism, drugs, heroin, trafficking, couriers and peddlars, arms and ammunition, 283
—, forensic, postmortem examination, 57
Test effect, human hair flat-cracking, red blood cell indicator, elution temperature, 173
Thevetia, yellow oleander, poisoning, 247
Time of death, body temperature, 47
Toolmarks, scanning electron microscopy, forensic examinations, 21
Torture, doctors at risk, concerned forensic scientists, 147
—, sequelae, controlled study, 153
Trafficking, drugs, heroin, terrorism, couriers and peddlars, arms and ammunition, 283
Traffic control, legislation, traffic education, rural highways, 237
Traffic education, traffic control, legislation, rural highways, 237
Training, mortuary technicians, Western Australia, 231
Typology, alcoholism, course study, 121

Under-graduate curriculum, history, forensic institutes, post-graduate education, 3

Victim identification, victim recovery, evidence, documentation for repatriation, property, 223
Victim recovery, evidence, victim identification, documentation for repatriation, property, 223
Victim sensitivity, rape, investigative technique, 113

Western Australia, mortuary technicians, training, 231
Witness, doctor, rights, duties, expert, 11

Yellow oleander, *Thevetia*, poisoning, 247
